Coronavirus Update 1-12-21

Dear members of the Sacred Heart University community,

We wanted to share the [link for submitting questions](#) for the virtual town hall meeting for students and parents planned for Tuesday, January 19, at 6 p.m. where representatives from the coronavirus task forces will answer questions about testing, SHU-Flex, health and safety and more regarding the spring semester. We will include the link for attending the meeting in Friday's message.

Campus Clear

We want to remind you that you will need to check in with our self-screening tool, [Campus Clear](#), once you are back on campus. In fact, we think it is a good idea to do it even while you are away. Campus Clear forces us to think about our recent contacts and how we are feeling, which is a good thing to do every day no matter where we are. Campus Clear is primarily a self-monitoring tool that reminds us to assess our health each day, so if you accidentally click the wrong button and are actually feeling well, you may still come to campus.

Keep Your Pod Tight

Everything we are reading about the recent spike in COVID-19 and the spread of the new variant says that a big component is the relaxing of restrictions and expanding of pods. While this is understandable—we have been quarantining for almost a year now, and we miss our friends and family members—we are nearing the end of the road with the arrival of the vaccine. Here at Sacred Heart, we want to do everything possible to get back to normal as soon as possible. That will include increased testing in the spring semester, and we hope it will also include diligent attention to whom we allow in close contact. Please, let's keep our pods really tight.

Wednesday Testing Slots Available

There are a lot of openings available for testing tomorrow. These slots are available to faculty, staff and students. Please [make an appointment](#) if you would like to be tested tomorrow.

Stay safe out there,
The Coronavirus Planning Team
